DETAILED ACTION

The following action is in response to the amendment filed for application 10/788,745 filed on January 26, 2006.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 7:

on line 3, --the-- has been inserted between "lid coupled to" and "outer shield."

on line 4, "in inner side" has been replaced with --an inner side--.

Allowable Subject Matter

Claims 1-8, and 10-29 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the energy storage flywheel system as claimed, and particularly including an intermediate shield spaced apart from an outer shield to define an intermediate space therebetween, and including the remaining structure of claims 1 and 22, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
